

**Opportunity with San Diego Biopharmaceutical – Ambrx, Inc.**

**Associate Scientist, Biological Science**

**10-17BR**

**Job Description**

Ambrx is seeking an Associate Scientist to join the Biological Science team. Ambrx is a clinical-stage biopharmaceutical company enabling a new field of protein medicinal chemistry, using a technology that directs the incorporation of amino acids beyond nature's conserved set into biosynthetic proteins to produce high value biological products such as antibody-drug conjugates and bispecific antibodies.

**Key Responsibilities**

The candidate should:

- Be able to work with minimal supervision.
- Perform general laboratory tasks, including cleaning and maintenance of equipment
- Perform basic calculations and data analysis
- Practice excellent aseptic technique for mammalian cell culture
- Have accurate and reliable record keeping including database management and notebooks
- Comply with good housekeeping and company safety practices
- Work collaboratively in a matrix team oriented environment

**Qualifications:**

The candidate must have:

- A Bachelor's/Master's degree in Biology or related field, or equivalent experience
- At least 10-12 years of hands-on lab experience in the biological sciences area
- Western blots
- ELISA/MSD
- Cytotoxicity assays
- FACS
- RNAi (siRNA/shRNA)
- Mammalian cell culture
- Transfections/transductions
- Basic molecular biology skills (i.e. cloning)
- Attention to details is a must
- Ability to meet tight timelines
- Ability to work collaboratively in a matrix and team oriented environment
- Must be able to lift at least 50 pounds

To be considered as an applicant, please submit your resume/CV referencing the specific position of interest to [careers@ambrx.com](mailto:careers@ambrx.com). Applicants whose qualifications and experience most closely match the requirements of the position will be reviewed. Ambrx offers competitive compensation & benefits. EOE
